Washington, D. C., Jan. 6.—Comment among Republicans in general upon the shelving and practical delegt of the Elections bill in the Senate yesterday is of a peculiar luid hue. It is characterized as among the most shameful and protections pieces of lawfall to the custom house at Chicago. Morning the past even years, is the popular branch of the Legislature in political accord three-quarters of an hour a quorum appeared, and the journal of yesterday's proceedings was read and approved.

The presiding officer laid before the Secretary of the Treasury asking for an appropriation of \$50,000 for the repair of the Legislature which is in business having been concluded the need as among the most shameful and notorious pieces of legislation for the benefit of the legislators that has ever disgraced the annels of Congress, and that is saying a great deal, when the Crelit Mobilier is recalled. Senator Hoar admits the defeat of the bill. Others say that it may be sgain up, but the fact remains that last night's caucus of Republican Senators was very slimly.

ous that after all the representations made as to the short opposition said to be rampant throughout all sections of the north to the measure, it remained for the actual negative votes to come from one particular section. Furthermore, that that section is the only one to be henefited by a certain species of legislation already in part and expected in full with the aid of the votes of a solid minority, and that certain species immediately takes the place of the deposed Elections bill. In short, if any one before had doubts as to whether there has been a deal between a few Republican Senators and the Democratic on the Silver and Federal Elections bills, and heartily disposed to support any Republican Senators and a number of members of senators and a number of members of the free between the senators and a number of members of the free coinage counts. The free coinage proposition is dead and with it the Finance bill. It was choked to death by its friends in the Senate. No greater violence could have been done to the free coinage of silver than was perpetrated by the silver-pool Senators when they joined the Democrats for the purpose of side-tracking the Canal.

In the first place there is a majority of Committee on Coinage, Weights and the bill when it comes over from the Senate. It was thought by some that when Mr. Conger, of lows, resigned from the chairmanship of the committee and Mr. Wickham, of Ohio, a free coineded to the chairman-

transaction is that it will defeat the Fin-ance bill, which has some good features. The Election bill was laid aside for the ostensible purpose of adopting a meas-ure to prevent the contraction of the rrency and put a stop to the hard nes, but it will prove to be the death knell of that measure, for free coinage would defeat any proposition now.

The Effect on 'Change. New Yong, Jan. 6 .- The Post says Silver bullion was almost the only thing dealt in on the Stock Exchange that was higher in the forenoon. It was up seven-eighths in the first hour, owing to the belief, whether warranted or not, that the defeat of the force bill had been that the detest of the force bill had been accomplished only by a compromise which would at least insure some further aliver legislation to provide for further purchases of bullion by the Treasury, if not to have some bearing on the free columns or marking.
